

All-New Ford Transit Custom carries loads more ...

INNOVATIVE LOADSPACE FEATURES:

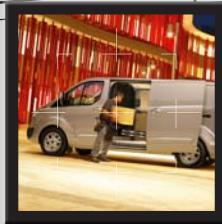

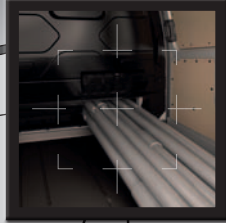

Deployable integrated roof rack system folds flat when not in use, features three transverse roof bars and is capable of carrying loads up to 130kg

Ultra-bright LED loadspace lighting features four high-performance LED units for extra visibility

Load-through hatch in bulkhead enables loads up to three metres long to be safely carried inside a SWB vehicle. LWB models can accommodate loads up to 3.4m long

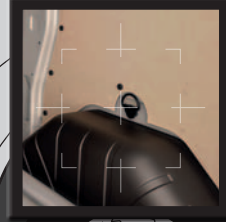

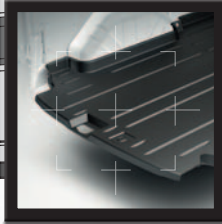

Class-leading opening height and width of sliding side load doors (1320 x 1030mm) for ease of loading and unloading

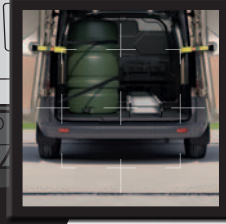

Locking check arms allow the rear cargo doors to be easily locked in place at 90 degrees open

Easy-clean load floor liner offers enhanced durability, simple cleaning and extends up to a height of 80mm around the sides of the load area

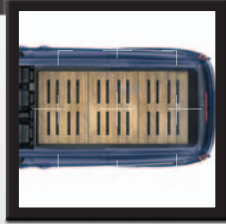

Repositioned tie-down hooks and fixing points are located on the body sides, making it easier to clean the floor

Class-leading width between wheel arches of 1390mm allows wide loads to be easily loaded and stored

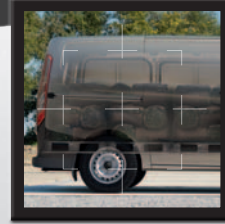

BEST-IN-CLASS LOAD VOLUME:

SWB model is the only vehicle in its class capable of transporting three Euro pallets with a one-metre high load

Capable of storing large standard 8 feet x 4 feet (2440mm x 1220mm) boards either vertically at the edge of the bulkhead or flat on the floor

SWB model has max load volume of 6.0m³ SAE (full bulkhead fitted). LWB model has max load volume of 6.8m³ SAE (full bulkhead fitted)
